

Amanda's Pet Dog

Hi again it is me, Amanda! So today I am going to talk about my pet dog and her name is Pepper. Her name is quite weird because 'pepper' is a name for the pepper which you use to eat..... And so let us get started!

On the first day I met Pepper it was so little! It was small as my hand (maybe a little bigger than it)! I was scared because I thought it was going to bite me. But on my second thought, I realised that its eyes were closed! So I was not scared anymore.

Her birthday is 2nd of March, and it is so close to my birthday! Mostly, I walked her at a river side when I just came home from school. She really liked to walk at the river side. She could explore there! Sometimes she used her nose to sniff at the ground, maybe running on the grass and sometimes using the grass to poo. He he.....

1 year later, my mom said Pepper can't live here anymore because we need to work and don't have anytime not even a minute. My dad agreed too... I was really sad, but I thought for a while and said fine. So there Pepper left and live into a big house. Days later, I heard that Pepper is going to give birth!! I was super excited. And I could go and see her cute little puppies!

Eventually Pepper had born 4 pups but when one of them was born it passed away. We don't know why but we're curious.

When me, my mom and dad were there, we knocked at the door. Nobody answered the door, so we just went in. When we went in there were people but also cute little puppies! This time it was smaller than Pepper was! We played and took picture with them.

Soon it was noon, me and the big sisters went into a bedroom. Inside there was, big bed, instrument, books, bookshelf, wardrobe and soft toys!

They started playing games on their phones. Because I don't have a phone, I just watch them play. They really like to play older games like fighting games which really look fun to me. In the living room, our parents were sitting and talking stuff that we don't really know much. Do you know that actually on that day, it was the pups birthday! Wait a minute, actually I forgot when it was because I went to see them several times already that I forgot which time it was..... He he

But let me just tell you on their birthday time. So we went to the living room and saw a cake. On the cake there was the 4 pups, Pepper and Summer. Summer is the father dog maybe I'll just call it father dog. Ha ha ha. So we sang the birthday song and blew the candles then we ate our cake. It was delicious. Mmm, yummy. Oh ya and we celebrated this party at the pet owner house which is the person that we gave Pepper away. OK, so after we ate the cake, me and the bigger sisters went back to the bed room.

Sometimes, the dogs like to run into the bed room and snuggle with us on the bed. Because you know that dogs really like to snuggle with people, but cats like to be alone, peace and quiet. So we just did the same thing as noon.

When it was night, we were still doing the same thing as just now..... Do you know that the next day is Monday and we hadn't even went home yet and slept..... It was so late, it was like 2:00 in the morning that we even hadn't slept yet!?!

So I guess it's the end. Though this story is already enough hilarious for me..... I spent 2 days for me to write this story, and I think I had fun! So see you next time and remember to be safe during covid-19!

PEACE!
